Body text:  
We have reached a decision regarding your submission to Quality - Access to Success, "QUALITY OF HUMAN RESOURCES IN WAQF INSTITUTION: Counterproductive Study on Muhammadiyah Charity Business".  
Our decision is: Revisions Required  
Reviewer A:  
Dear author,  
Thank you for the submission.  
The paper is in good shape, while there are some which need to address.  
The previous study on the QUALITY OF HUMAN RESOURCES IN WAQF INSTITUTION has to be clearly stated. Not only this, the term should be clearly defined, for instance waqf, sedekah and zakat, in which each has difference. Also, tell us what is the unique and difference of the quality of HR in waqf institutor from Muhammadiyah perspective, compared to others. Why Muhammadiyah is chosen apart from other NGO. All these should be clearly discussed in the literature. Please avoid the long sentence which is hard to understand. Be clear and concise. Implications of this research are notable and it will influence to give insights into useful baseline data upon which further work may be built, particularly in the less explored developing country context.  
I had a good time reading your research paper. The idea is interesting and would encourage this to be brought to light. However, this paper would need more editing and reviewing. Do not lose hope. You are almost there!  
Recommendation: Revisions Required

Review content:

Reviewer B.  
This article has power over data and its discussion, but abstracts need to be created in clear language. Methods must be clarified as well as the implementation of research

Home / About the Journal

### About the Journal

**Quality - Access to Success** was edited by the Romanian Society for Quality Assurance (RSQA), in order to promote quality culture and increasing the managers' awareness of the implementation and certification of management systems. As a consequence of the rapid development of the quality assurance field, as well as of the growing variety of standards and of customer demand for such standards, the journal has expanded its content: becoming, by mid 2005, a journal of management systems. Consequently, our columns tackle all management systems related to international standards of implementation and certification:

- Quality Management
- Environmental Management
- Energy Management
- Food Safety Management
- Occupational Health and Safety Management
- Information Security Management
- Quality Management for Medical Devices
- Business Continuity Management
- Service Management
- Social Responsibility

The readership of the journal includes top management of firms planning to implement a quality assurance system or wishing to maintain or improve an existing system, as well as top management of companies whose goal is to raise the performance of the enterprise, to improve customer satisfaction, and to work towards Total Quality Management, excellence in business and quality awards. They can find also articles in **General Management** column on management techniques, methods of management, leadership, organizational culture, etc. The **General Management** column will provide a fundamental understanding of people management, strategy, finance, marketing and business operations, and the way how these functions integrate for organizational success.
